Mt. Rainier N Scale Club

By Kirk Reddie
NSR takes a tour of one of the Pacific Northwest's leading modular layouts.

32

GREAT SCENES C&NW E4 Hudson on Varnish

By Bill Denton
Before EMD took over C&NW's 400 Fleet, the railroad used a few streamlined Hudson 4-6-4s.

34

OUR COVER STORY C&O oNeTRAK Mountain Subdivision

By Bernie Kempinski
Bernie and friends are building an amazing modular layout system representing one of C&O's eastern routes. Enjoy a sampling of their efforts.

44

PART SIX: Wiring and Controls for the Spokane International Project Layout

By Mike Pagano
Mike explains how he wired the Spokane International layout using DCC components.

On the cover:
Bernie Kempinski captured C&O train 93 westbound at Afton on the C&O Mountain Subdivision module.

Those Fabulous 40 Footers

By Keith Kohlmann
If you are modeling the 1950s or early 60s, you gotta love those basic 40-foot boxcars. Here is a nice sample of cars Keith has modeled from that era.

57

Stainless Steel Made Easy

By Marlin Cox
Marlin shares how to take early Kato silver passenger cars and finish them to match the newer stainless steel look on Kato's *California Zephyr* and *Super Chief* cars.
